BACKCOUNTRY & FREERIDE

BACKCOUNTRY & FREERIDE

Immersing yourself completely in the snow, skiing along winding trails and down steep slopes, through gullies and the woods in complete freedom – this is the meaning of freeriding and backcountry skiing. Alpine ski tours, snowshoeing to look at the animals or adrenalin – fuelled heliskiing descents are just a few of the many opportunities available to you in Livigno.

SNOW AND AVALANCHE BULLETIN

Livigno offers its guests two unique services: the local avalanche bulletin and one on the snow conditions for off-piste skiing and not. In the avalanche Bulletin find the most important information to better manage your safety; while if you want to know where are the most beautiful conditions for freeride the bulletin of the snow quality is what you seek.

SKI TOURING

The wide variety of routes allows all ski mountaineers to find the most suitable trips for them: from climbs on open slopes lasting a couple of hours to trips onto the glaciers lasting several days. Many of the peaks can be reached by skis and we strongly recommend you always head out with an experienced mountain guide. During the trips there are always opportunities to learn: technical advices, materials, snow-science and avalanches, prevention.

In Livigno we have also thought of itineraries marked with poles by our guides for all those who want to get closer to the world of ski-touring.

Ski touring croce Valandrea

CIASPOLE

Snowshoes and mountain skiing are two of the more classical ways of enjoying nature in winter. The snowshoes or drezola as they're called in Livigno dialect, used by the mountain people during the cold winters, enable you to enjoy both the woods and valleys that seem to fall asleep during winter, and a glimpse of the many animals that live here.

In Livigno we have also thought of itineraries marked with poles by our guides for all those who want to get closer to the world of snowshoes.
